

Brian Straightiff

Chief Technology Officer
Lowes Risk Group

Industry Licenses & Certifications

- Certified Scrum Master (CSM)

Education

Bachelor's Degree – Computer Science; Marymount University

Professional Summary

Brian is a collaborative, goal-oriented IT executive. He has a passion for solution building which has led to numerous successful acquisitions. He is a huge proponent of iterative design and has experienced success leading teams from Codeathon to Lloyd's Lab Accelerator Program to Production.

As CTO at Lowes Risk Group, Brian identifies critical technologies to enhance products, driving business growth aligned with company goals, and establishes technical objectives. He also manages operations within the budget, leading a high-performance tech team, and ensures effective processes. His contribution extends to LRG's profitability, planning, and growth strategy.

Prior to his career at Lowes Risk Group, Brian held various positions in the IT field, including Delivery Manager for the U.S. Coast Guard Architecture and Design Team. He has expertise in the following areas:

- | | |
|---|---|
| ▪ Cloud Architecture | ▪ Business Continuity & Disaster Recovery |
| ▪ DevSecOps | ▪ Merger & Acquisition Transitions |
| ▪ Automation | ▪ IT Security |
| ▪ Enterprise Data Initiatives Spatial Technologies | ▪ Technical Contract Negotiations |
| ▪ Compliance (SOC2, DoD STIG, DHS Hardening Guidelines) | |
